

➤ASTHMA.◀

What is it? It is a chronic Paroxysmal and intermittent disease of respiration, accompanied by wheezing, and a distressing sense of tightness in the chest, and is one of the most irritating and agonizing complaints, and perhaps the hardest to conquer or relieve of any of the long list of diseases we have to contend with.

It is a painful sight to witness a patient in his almost hopeless struggle for the scanty supply of air he receives, which, if the spasm is protracted, the oxygenation of his blood is imperfectly performed, and at the same time the violent muscular effort at respiration covers him with perspiration.

The symptoms at times are extreme wakefulness and unusual mental activity at others the patient goes to bed and sleeps two or three hours, becomes distressed in his breathings, and begins to wheeze. He awakes, changes his position, falls asleep again and again, and the miserable fight between asthma and sleep may go on, till the increased suffering does not allow the patient to longer forget himself for a moment.

It is for the relief and cure of this terrible disease, that we now offer

THE SHAKER ASTHMA CURE, FOR ASTHMA ONLY.

We do not claim it to be a cure for all the ills flesh is heir to, but by the many testimonials of its merits that we are receiving, rest assured it is doing much good to this class of suffering humanity,

The New York Trade Journal referring to the Shakers as manufacturers of medical preparations, says :

"All their many great improvements and discoveries have been made without the braggadocio and flourish of trumpets usually attendant upon the invention of other people. It is well known that they have made the cultivation of herbs for medicinal purposes, a study for upwards of fifty years; their patient, unobtrusive and persevering investigations into the properties of plants adapted for medicinal preparation, have done much for the "Vegetable Materia Medica" of the world, experiments in the line of medical botany have for many years been conducted for the benefit of mankind by the Shakers in their quiet characteristic manner, and we are glad to state that these experiments have not been without happy results"

This Asthma cure is manufactured exclusively by the Shakers.

PRICE PER PACKAGE of 18 Pellets.	- - - -	\$1.00.

❖TESTIMONIALS❖

—IN FAVOR OF—

The Shaker Asthma Cure.

We insert a few of the many testimonials in favor of the *Shaker Asthma Cure*, not caring to make an extended list, but enough to show how highly it is esteemed by the afflicted.

FRIEND D. C. BRAINARD: The box of Shaker "*Asthma Cure*," received. Many thanks due for same. Have not enjoyed a common night's rest for a long time, being obliged to sit upright much of the time. Am enjoying the effects of a splendid night's repose, produced by your Asthma medicine. May your present efforts be prospered through extensive circulation, that the many thus suffering may hail it as a welcome friend.

A. CROSSMAN,

SONYEA, LIVINGSTON Co., N. Y., April, 1883.

FRIEND BRAINARD: I received the boxes of *Shaker Asthma Cure* you so kindly sent me, and have been using the medicine. It reached my asthma difficulty at once, stopped my cough and gave evidence of a cure for asthma, and as such, I can freely recommend it. Shall present some of the medicine to neighbors of my acquaintance afflicted with asthma, with great confidence, that they may find relief and no doubt a cure.

Yours truly,

SYLVESTER PRENTISS,

Watervliet, Albany Co., N. Y., May, 1883.

FRIEND BRAINARD: I wish to inform you that your *Asthma Cure* has given me more relief than all the doctors I have applied to.

JAS. A. CLENDINNING,

591 Eleventh Avenue, New York City, June, 1883.

D. C. BRAINARD: I received and used your *Asthma Cure*. It is the first thing in thirty years that has relieved me, and given me a good night's rest. I have recommended it to friends having the asthma very bad and they have been greatly relieved.

I recommend it to anybody that wishes to be cured of a troublesome complaint.

Your ever-thankful friend,

MRS. BOYD,

NLM

225 North Seventh Street, Brooklyn. N. Y., Oct. 1883.
